

# Webmail Access

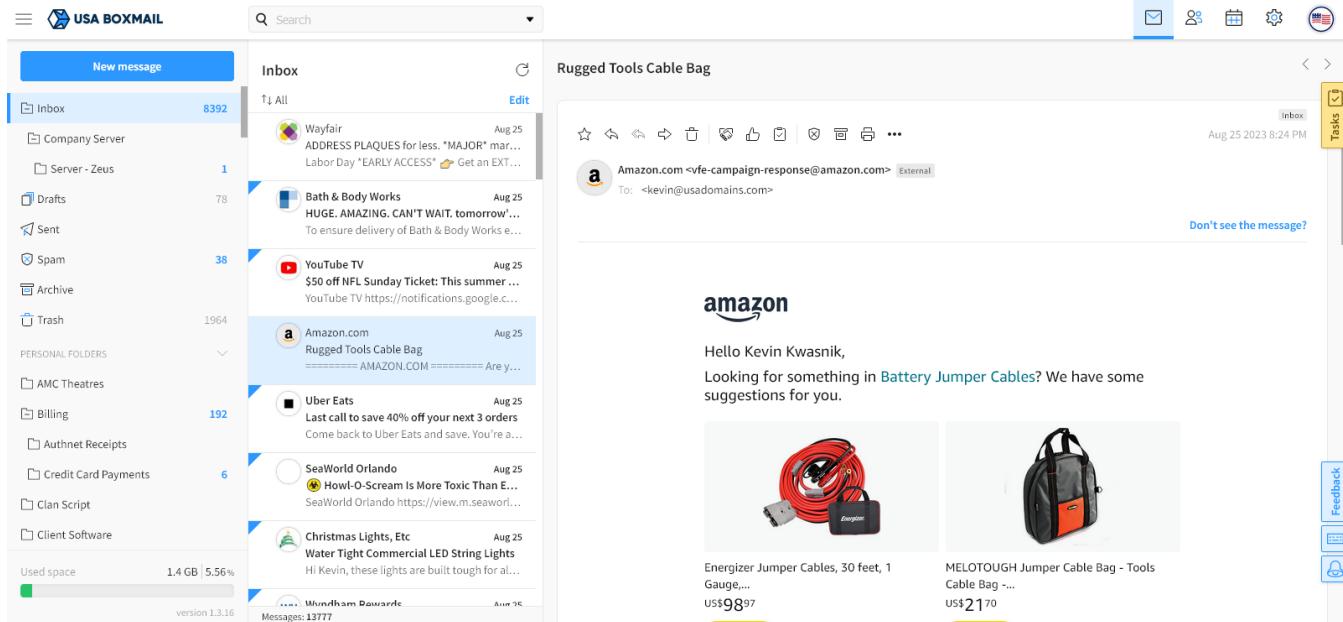

## Welcome to Webmail

Users can access their email in two ways. One way is by using a traditional email client such as MS Outlook or Thunderbird. The other way is by using our feature-rich Webmail Suite. Our Webmail allows you to send and receive emails, manage Tasks, share your calendars and contacts, as well as exchange instant messages. Webmail works easily from the web, is accessible anywhere, and you don't have to install any software.

Enter in the address bar of your browser (on your computer or phone): <https://webmail.usaboxmail.com> and log in with your credentials.

If you have activated two-factor authentication (2FA) you will be asked to enter an additional OTP code.

You can easily use our Webmail from computer, smartphones, and tablets.

The screenshot shows the USA Boxmail webmail interface. The left sidebar includes links for New message, Inbox (8392), Company Server, Server - Zeus, Drafts (78), Sent, Spam (38), Archive, Trash (1964), PERSONAL FOLDERS (AMC Theatres, Billing 192, Authnet Receipts, Credit Card Payments 6, Clan Script, Client Software), and a summary of Used space (1.4 GB, 5.56%). The main area shows the inbox with several messages from Wayfair, Bath & Body Works, YouTube TV, Amazon.com, Uber Eats, SeaWorld Orlando, and Christmas Lights, Etc. A specific message from Amazon.com about a 'Rugged Tools Cable Bag' is selected. The right side of the interface features a sidebar with icons for Mail, People, Calendar, Tasks, and Help, along with a 'Feedback' link. A recommended product from Amazon for 'Rugged Tools Cable Bag' is displayed, showing an image of the bag and a price of \$21.70.
